

Peak Performance

Hi-Tech Seals is pleased to introduce our Blue Bullet wireline packing. This exclusive design is composed of an engineered elastomeric compound which is then coated in PTFE.

Features of this unique compound are:

- Enhanced temperature range of -40°C to 160°C
- Exhibits improved material strength that resists extrusion, abrasion and wear
- Resistance to hydrogen sulfide & CO₂ degradation

Hi-Tech Seals' Blue Bullets have been proven to out last other packings by up to 50%. Enhanced performance increases the time between maintenance cycles, thereby saving wireline crews time and money.
