

O-Ring Warehouse Kit

1100 O-Rings in 150 Sizes

The O-ring warehouse kit is ideally suited for the factory maintenance department that needs a large on-hand selection of O-rings to insure continuous operation of production equipment.

The O-ring warehouse kit offers these outstanding features:

- Sizes 001 to 043, 110 to 149, 210 to 240, 325 to 340, 901 to 932
- O-rings are stored in a sturdy plastic cabinet (see picture above) measuring 18" x 14- 1/2", 6". The cabinet has eighteen clear pull-out drawers for easy access to parts.
- Individual O-ring sizes are enclosed in 4 mil zip lock poly bags. The poly bags provide additional protection against ozone, fluorescent and ultraviolet light and contamination.
- An O-ring reference chart is included which shows the drawer location of each part, the 568 number, the number of pieces per size and the nominal (fractional) dimensions.
- All O-rings are manufactured from an industrial quality 70 durometer Nitrile compound, except the 900 series which is 90 durometer,
