

Announcement

Effective January 3rd, Genseal Products Inc. will be merged with Hi-Tech Seals Inc. Genseal and Hi-Tech Seals have had a long and beneficial business relationship. We look forward to the synergy provided by merging, which will help serve our customers in a more efficient and effective manner.

Effective January 3rd all invoicing will be completed through Hi-Tech Seals Inc. and all receivables will be remitted to Hi-Tech Seals Inc. (Head Office) located at 9211-41 Ave, Edmonton, Alberta T6E 6R5. All invoices prior to December 31st, 2010 should be submitted to Genseal Products Inc. in Winnipeg.

Hi-Tech Seals Inc. recently celebrated its 20th anniversary. We offer over 500 years of combined sealing experience and four additional locations to serve you: Edmonton Alberta (Head Office), Calgary Alberta, Newmarket Ontario & Boucherville Quebec. With our new Winnipeg location we are looking forward to expanding our presence into the Manitoba, Saskatchewan, and Northern Ontario marketplaces. We now offer an expanded line of O-rings, hydraulic seals, molded rod, tube and sheet materials, oil seals, oilfield seals, mechanical seals, braided packing, caps and plugs, spherical ball bearings, extruded rubber products, vibration mounts, and custom molded rubber molding.

Hi-Tech Seals Inc. also offers a complete in-house machining facility for manufacturing prototypes or special hard to find hydraulic seals with a 48-hour turnaround. We also offer laser cutting and proprietary part number etching on many types of seal materials.

Visit us at www.hitechseals.com to review all of the world-class products and services offered by Hi-Tech Seals. We look forward to continuing our work with you in the future. If you have any questions or concerns, please contact Hi-Tech Seals Winnipeg by phone at 204.775.7881.
