

## High Performance Packing Designed for Extreme Service

High Performance Packing (HPP) is Hi-Tech Seals extreme service packing. Originally developed for service in chemical injection pumps, High Performance Packing can be utilized for service in extreme service pumps and valves. HPP sets feature a virgin PTFE top (female) and bottom (male) adapters, with center vees composed of a high fluorine content elastomer.

| Part Number         | I.D. | O.D. | Height | Set   |
|---------------------|------|------|--------|-------|
| HPP 0250 087 S 1100 | 1/4" | 7/8" | 1.100" | 1-3-1 |
| HPP 0375 087 S 1100 | 3/8" | 7/8" | 1.100" | 1-4-1 |
| HPP 0500 100 S 1100 | 1/2" | 1"   | 1.100" | 1-4-1 |
