

# Industry

Vibration & Noise insulation

*Innovation for your future*

# Your issues

- **Vibration**
- **Noise**
- **Shock**
- **Sealing**
- **Power transmission**

# Your expectations

- **Reducing maintenance costs of your machinery**
- **Protecting your equipment and workforce**
- **Meeting noise and vibration regulations**
- **Increasing the reliability of your machinery**
- **Increasing the lifespan of your equipment**

# Our solutions

- **A wide range of products**

- **Flexible mountings**

- **Acoustic foams**

- **Metal mountings**

- **Flexible bushes**

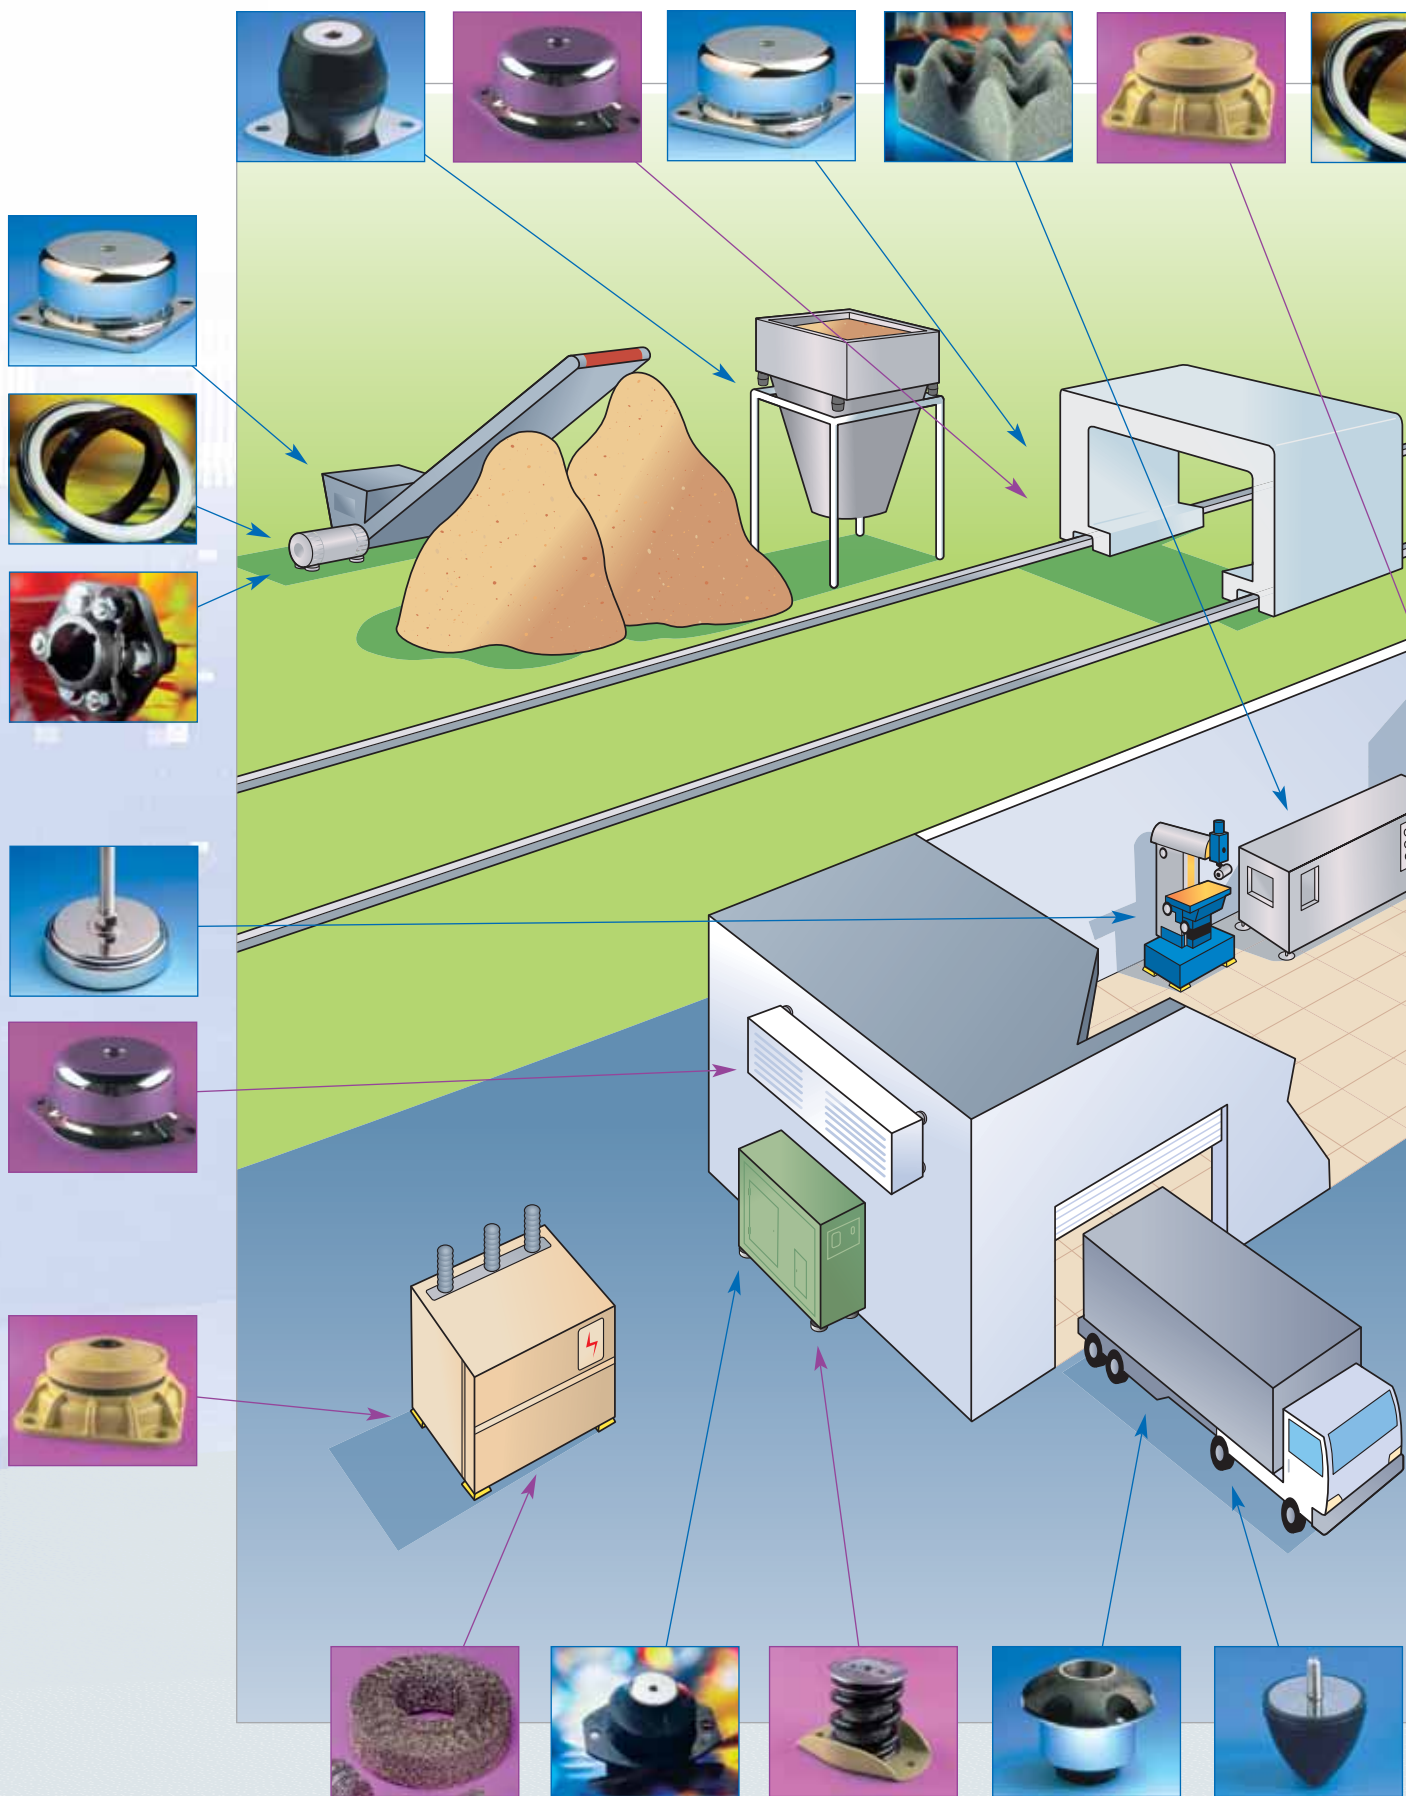

- **Flexible couplings**

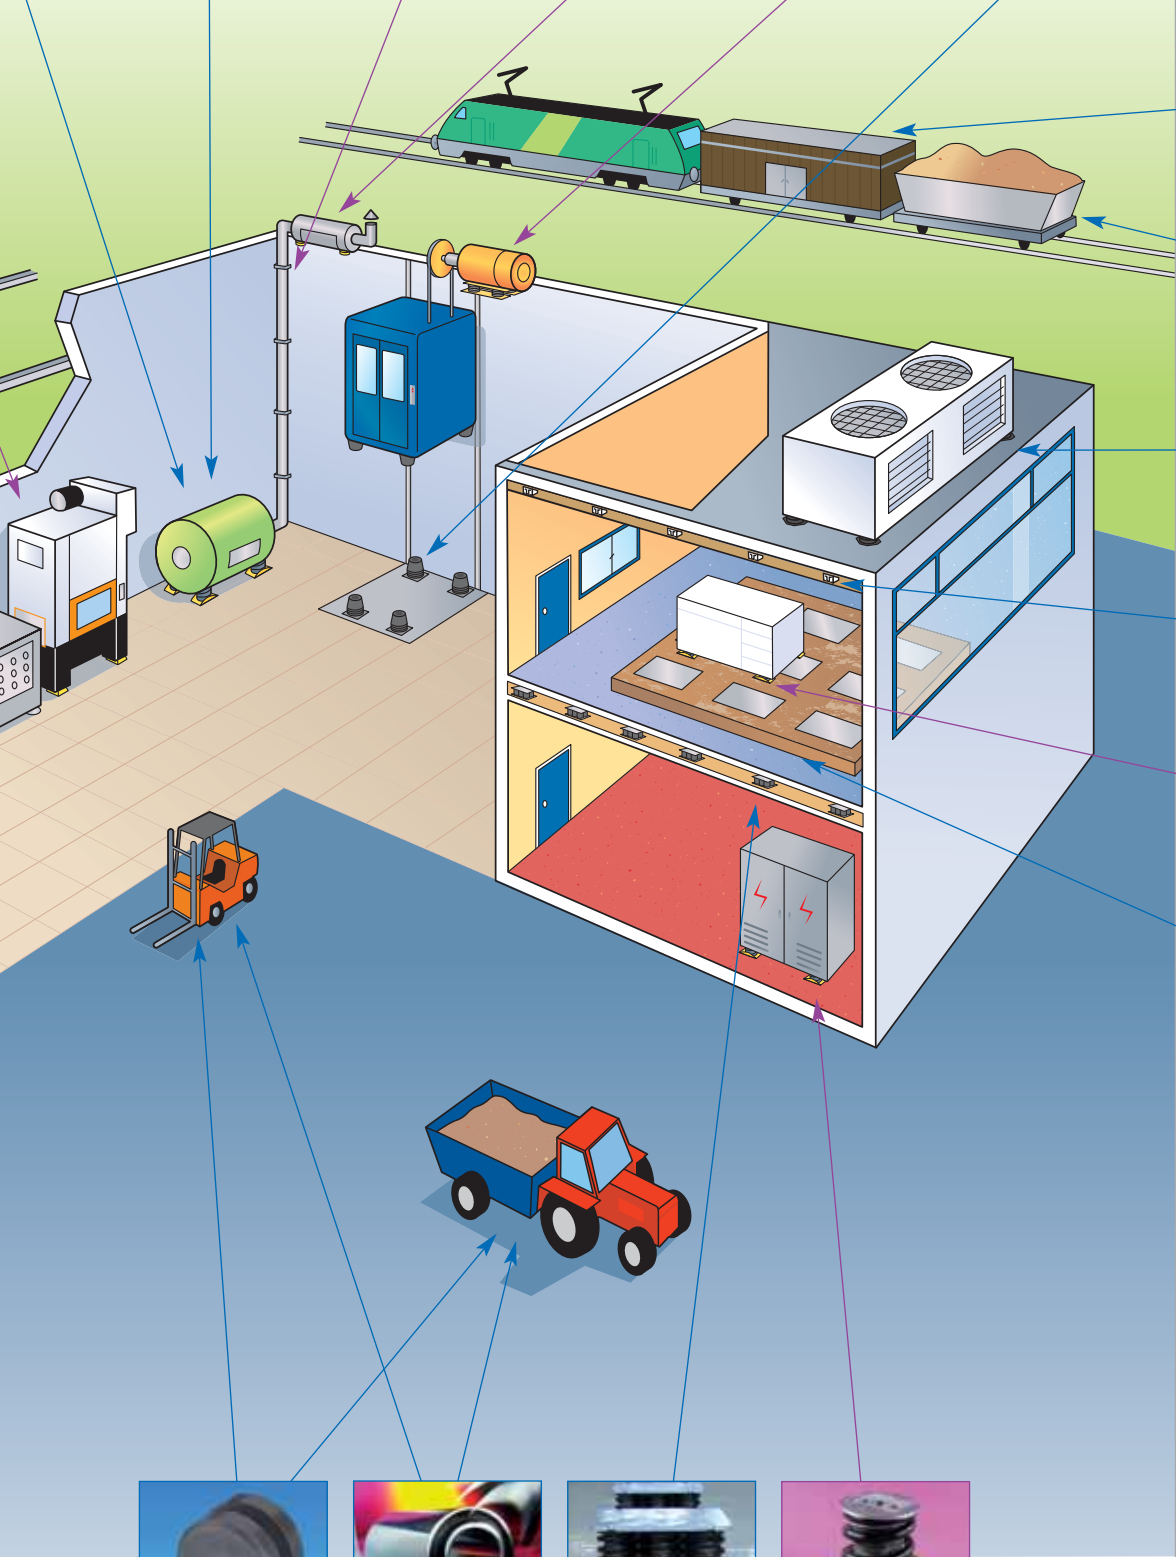

- **Seals**

- **A network of local distributors with ex-stock products**
- **A technical sales team to help you make the correct product selection**

# Range of applications

Anti-vibration mounts and flexible couplings on a hopper

Display Mounting System

Fan mounting and acoustic enclosure

Hard drive mounting system

Hammer suspension

Mixer mounting system

Exhaust mounting

## Ask for our catalogues:

PAULSTRA VIBRACHOC, as part of the Hutchinson group, bring you the optimum solution thanks to the performance of its technical staff.

PAULSTRA VIBRACHOC, with leading technology in vibration insulation, can offer you a wide range of standard products immediately available all over the world.

## A worldwide distribution network of more than 500 branches.
