Single Acting  
Fabric Rod w/  
Anti-Extrusion (FE)

Double Acting (DAM)

## Product Description

Single acting fluid seals (SAM) can work both as a piston or rod seal. Our standard material is a nitrile sealing element with a fabric reinforced base. Corresponding wear rings are sold separately. Contact us for dimension information of single acting fluid seals with a anti-extrusion rings.

Our double acting fluid seals (DAM) are designed for use on split pistons. DAMs are composed of a nitrile sealing element, fabric reinforced base, and two acetal wear rings.
